SUMMARY

Software Engineer with 1.5+ years building secure web applications for the banking sector. Proficient in Angular, .NET, and Spring Boot with hands-on experience delivering features for major financial platforms including NDB NEOS, Union Bank UBGO, and CDB Self. Strong foundation in full-stack development, RESTful API integration, and performance optimization for high-traffic banking applications.

WORK EXPERIENCE

Epic Lanka (Pvt) Ltd - Associate Software Engineer

Jan 2025 – Present

- Developed and deployed 5+ customer-facing features for NDB NEOS digital banking platform serving 100,000+ active users using Angular 15, NgRx for state management, and RxJS for reactive programming
- Integrated 10+ RESTful APIs with backend .NET services, reducing API response handling errors by 30% through robust error handling and retry mechanisms
- Collaborated with cross-functional teams (3 backend developers, 2 QA engineers, 1 product owner) in Agile sprints to deliver features 2 weeks ahead of schedule

Epic Lanka (Pvt) Ltd - Software Engineer (Trainee)

May 2024 – Dec 2024

- Redesigned 8 core UI components for Union Bank (UBGO) and CDB Bank (CDB Self) platforms using Angular Material and SCSS, improving mobile responsiveness by 40%
- Implemented component-based architecture following Angular best practices, reducing code duplication by 25% and improving maintainability across 50+ components
- Built automated test suites using Jasmine and Karma with 80%+ code coverage, participating in full CI/CD pipeline via GitLab
- Contributed to feature development for fund transfers, bill payments, and Fixed Deposit (FD) account openings

TECHNICAL SKILLS

Frontend:	Angular, React.js, RxJS, NgRx, HTML5, CSS3/SCSS, Material UI, Tailwind CSS
Backend:	Node.js, Spring Boot, Express.js, .NET Core
Databases:	MongoDB, MySQL, Firebase
Languages:	JavaScript, TypeScript, Java, C#, Dart, SQL, Python
DevOps & Tools:	Git, GitLab CI/CD, Docker, Jira, Postman
Core Competencies:	Object-Oriented Programming (OOP), RESTful API Development, Responsive Web Design, Unit Testing, Agile/Scrum Methodologies

PROJECTS

NEOS - NDB Bank | July 2023 – Present

A full-featured digital banking web application supporting fund transfers, bill payments, FD openings, and JustPay transactions serving 100,000+ customers

Tech Stack: Angular, NgRx, Material UI, Docker, RESTful APIs, Git

Union Bank (UBGO) & CDB Bank (CDB Self) Internet Banking | May 2024 – Dec 2024

Comprehensive banking portals enabling clients to manage financial activities securely and efficiently with enhanced mobile-responsive UI

Tech Stack: Angular, NgRx, Material UI, Docker, RESTful APIs, Git

TourDrive - University Final Year Project | 2023 – 2024

Full-stack tourism vehicle management platform connecting tourists with service providers, featuring real-time booking and GPS tracking for 500+ test users

Tech Stack: React, Redux, Flutter, Node.js, Express.js, MongoDB, Firebase, Google Maps API

EDUCATION

Bachelor of Computer Science | University of Ruhuna

2020 - 2024

Matara, Sri Lanka

Final Year Project – TourDrive (Tourism Vehicle Management Platform)

- Developed full-stack web and mobile application with real-time booking, GPS tracking, and payment integration
- Built responsive React dashboard and Flutter mobile app supporting iOS and Android
- Engineered RESTful API backend with Node.js, Express.js, and MongoDB supporting 1000+ concurrent sessions

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Development

G.C.E. Advanced Level | Richmond College, Galle

2018

ADDITIONAL INFORMATION

Languages: English (Professional proficiency - Diploma, Britishway English Academy), Sinhala (Native)

Other Skills: Adobe Illustrator, Photoshop, MATLAB, Mobile Development (Flutter)
